2023

Hello, everyone.
We had another interesting year with our active aging. Sandy has balance problems so uses a walker most of the time,, Her vision has diminished so she can no longer see faces. We still take trips and are active in our church, button club, ukulele club, House of Sweden, and SDSU Retirees.

Wishing you a very merry Christmas and a great 2024. 2024 already...where did the time go?
